

**Main Street Elementary School
Parent & Community Involvement Plan
2016-2017**

Main Street Elementary will provide opportunities to promote, increase and support parents' knowledge and involvement in our students' social, emotional, and academic growth process. We aim to increase communication centered on student progress and school programming among all stakeholders. We welcome and create opportunities for parents and community members to support the school by volunteering their time in the learning environment and supplying tangible resources. We believe that if we involve parents in the decision making process concerning the academic growth of our students we will achieve greater support from our community members.

In an attempt to assure that the above vision comes to pass, we will commit to doing the following:

- Increase the quality and quantity of parent meetings to include, but not limited to Family Nights, Curriculum Nights, and Principal's Parent Meetings. All of the aforementioned opportunities will be utilized to share the successes and needs of Main Street Elementary.
- Provide numerous mediums to provide feedback to our parents and community members. Report cards, websites, social media, School Messenger, and school-wide planning meetings will be used.
